LITTLE LOCALS.

Mothner Bros have a new ad.
Read the new ad of the Counter Racket store in this issue.

Mrs. Geo. W. Collier went to Galveston this morning.

Notice the change in Hecht's ad. Sol Sanders, the tobacco drummer, went to Orange this morning. Elections will be held next Tuesday in Ohio, Kentucky, Nebraska and Iowa, that will, without doubt, have some significance.

Engine No. 559 pulling a Southern Pacific freight came in from the east this morning with her pilot missing. Deputy Marshal Branch last night arrested one of the men connected with the theatrical troupe, for using obscene language on the streets.

Rhodes Mueller returned yesterday from San Antonio and New Braunfels, where he has been spending some days.

A BIG GAIN.

Agent John B. Goodhue of the Southern Pacific, has just completed his report of freight received at this point, and it shows that there has been an increase of 2,000,000 pounds in freight received over last year. A total of 15,000,000. This does not include tonnage hauled for the use of the company in Beaumont, which aggregated 6,000,000 pounds more. This increase in business of one road in a great measure reflects the progress of Beaumont, for there are other roads, which get their share of the business of this city.

INTERESTING SERVICES.

Despite the bad weather, there was a good attendance at the auditorium last night, and there was more interest in the meeting than has yet been displayed since the beginning. Rev. Pledger conducted the services and he did it in such a manner, that proved his ability to conduct revival services without the aid of an evangelist. In fact there were more conversions last night than at any time during the meeting and a continuation of the good work is promised. There was a good service again this morning and tonight services will be held at the M. E. Church, on account of the cool weather, and will begin at 7:15. Everybody invited.

PEE GEE RE-ORGANIZATION

Philadelphia, Pa., Nov. 1.—When questioned to-day about the various rumors with respect to the proposed changes in the plan of reorganization of the Kansas City, Pittsburg and Gulf railroad company and its terminal properties, William F. Harty, chairman of the Philadelphia re-organization committee, said to-day:

"The revised reorganization of the Kansas City, Pittsburg and Gulf system has been prepared and will be made public within the next few days. Under the new plan the unity and integrity of the system is to be preserved as originally contemplated by the Philadelphia committee, and the fixed charges are to be further reduced. Details will not be furnished until the official announcement of the plan is made.

"It is true that John W. Gates, president of the American steel and wire company, will virtually be in control of the new company, and that Edward H. Harriman, representing influential interests, will be actively associated with us. There is likely to be complete harmony between Mr. Gates and Mr. Harriman, and the property is likely to be benefited thereby. The endorsement of the modified plan by the New York committee will insure its complete success.

"Whether or not John W. Gates will be president of the new company is chiefly a matter for Mr. Gates to determine, as he and his friends will be likely to absolutely control the situation."

RENTED THE NASH HOTEL.

It is announced that Mrs. R. C. Hamilton has rented the Nash House and will conduct a first class dollar a day house. The patronage of the traveling public is respectfully solicited.

Flow's candy, the perfection of sweets, at Cheshire's.

Ennis Local: We are not an "ex-

pansionist in the sense of adding foreign territory to the domain of the United States authority, but there seems to be no escape from the retention of the Philippine Islands. If this government has to subjugate them by force of arms, their retention is certain: for we may, by holding them not something in return for the blood and treasure they have cost but if we let them go we get nothing.

Many of the anti-expansionist, or anti-imperialists, as they call themselves, insist that the soldiers of this country shall be kept in the Philippines till the war is over. It is presumed that they want them kept there to fight, as they surely would not have them kept there as ornaments. The natural deductions from this that they want them kept in the Philippines to whip the Filipinos. Then they declare that the islands must be turned over to the enemy, whom we have whipped. There is something extremely sentimental and grand in all this. But this people will never agree to anything of this kind. In fact, the contention that this country should abandon the islands is the most ridiculous case of "barking at a knot" that has ever occurred.—Galveston News.
